Overview

Keeping your truck in top working order is a primary responsibility of each driver. The best way to do this is to continue to build on your tools to successfully and safely complete a post-trip inspection.

We will cover the following:

- Securing the vehicle with an approved device before any maintenance is done
- Daily inspections of various parts of the truck
- **Training Hour(s): Classroom 1 hr**

Securing the Vehicle

How to Use Wheel Chocks

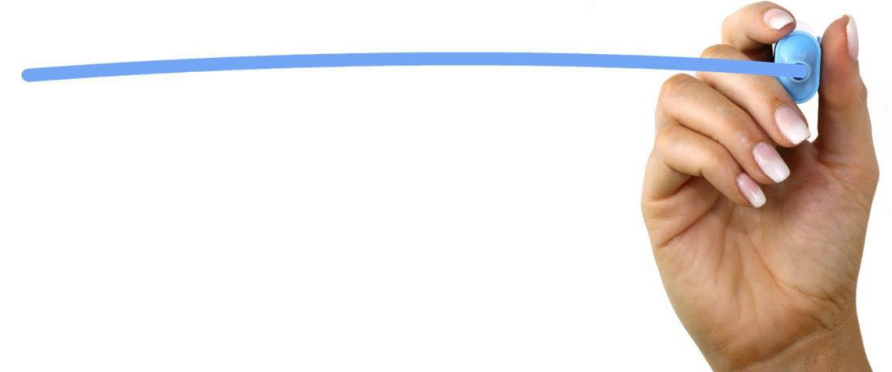

- Check that the parking brake is set
- Always use wheel chocks in pairs
- Place wheel chocks on the left and right wheels closest to the loading dock
- Use the right size chocks for the tire and center them against the wheel
- Communicate with loading or unloading crew once the chocks have been securely placed

Compliance Check

New Truck Compliance Check

- Cab card and book
- Inspection sticker – verify the truck is not overdue
- Current IFTA stickers on both sides of the truck
- Required permits
- License plate – make sure the plates on the front and back of the truck match
- FMCSA Safety Regulations and Hazardous Materials book
- Paper log tickets

COMPLIANCE

New Truck Safety Check

Emergency equipment

- Orange triangles in a plastic case – 3 triangles for break downs
- Fire extinguisher – charged and secured to the truck
- Extra fuses – if your truck doesn't use circuit breakers, you must have spare fuses
- First aid kit
- LED flashlight

New Truck Safety Check

Truck Supplies

- CB radio
- Extra oil, coolant, and windshield washer fluid
- Line antifreeze and diesel anti-gel
- Chains and bungees
- Gladhand seals
- Hammer, wrench, wire cutters, cable cutters, knife with glass-breaker
- Shovel
- 12 ft, 10 GA Heavy duty jumper cables
- Tire pressure gage

Driver Safety Check List

- Safety jacket/vest
- Safety helmet
- Safety glasses
- Face mask
- Vinyl gloves
- Heavy duty work boots
- Emergency whistle
- Utility knife
- Moist toiettes
- Hand sanitizer

Let's hit the road!
